

Watchmen Voter Guide for Idaho Governor

** Click on each candidate's name to see their completed questionnaire **

	Steven R. Bradshaw	Ben Cannady	Chantyroise Davison	John Dionne Jr.	Stephen Heidt	Edward R. Humphreys	Janice McGeachin
1. What is your name, what office are you running for and why are you running for this position?	Steven R. Bradshaw/Governor of Idaho (Why) I am running because the current Governor has folded to Federal overreach and does not have the People Idaho as his #1 priority	Ben Cannady, I am seeking the office of the Governor. I am tired of your typical politician and I'm tired of the empty promises.	My name is Chantyroise Davison and I am running for the office of Governor with the Constitution Party. I wanted somebody that understands what the people of Idaho are going through; somebody who is honest; somebody who would go in and try to do the job instead of worrying about being on television and making false promises. I want to inspire others who may think they can't make a difference to stand up because this is their home too.	John J. Dionne Jr, Governor. I believe the two parties have taken the country and this state down the wrong road. We need to repair the damage before it is too late.	My name is Stephen Heidt and I am the Democratic gubernatorial candidate. I am running specifically because I believe my platform more closely matches the overall needs of the Idaho constituency for the state at large	Ed Humphreys, Governor. I'm running for Governor because it's become obvious to me that the career politicians are destroying America and ruining Idaho. Most of us know in our hearts something is very wrong right now. Evil is called good and good is called evil. Boys are now girls, indoctrination is considered education, fiction is fact. My family lived under and fled from Communism in Easter Europe. This spiritual battle is one in which I will not be on the sidelines for. It's my deepest hope that this campaign will inspire others to step up in ways they never have before.	My name is Janice McGeachin. I am the current Lt. Governor of Idaho, and I am running for Governor to restore the principles that have Made Idaho Great — individual liberty, state sovereignty, and traditional conservative values. My campaign has been endorsed by President Trump because I stand for America First policies including individual liberty, election integrity, a strong and secure border, school choice, energy independence, reducing taxes and regulations, and supporting American businesses.
2. When do you believe life begins and how does this belief affect your executive decision making?	Life begins at birth, but for me as a Pastor it goes much deeper, Jeremiah 1:5 "Before I formed you in your mothers womb, I knew you."	I believe life begins at conception!! I also believe that yes abortion is needed in rare case like life threatening conditions.	As a mother of 2 and as someone who has lost babies during pregnancies I do understand that if life ends with the loss of a heartbeat then life begins with a heartbeat. This I believe has no affect with decision making.	At conception! It can not effect my executive decision making! My decision must be based on individual Rights.	I am pro-life , I agreed with the Idaho Democratic Party that I would only say that, and I will honor the commitment I have made to them.	Life begins at conception. I oppose government promoting or funding abortion. Human life has inherent purpose and value. Abortion destroys families and attacks all the values that are necessary to promote strong and vibrant communities. Sadly, even	I believe life begins at conception and that all individuals, including the unborn, have unalienable rights. I have a 100% pro-life voting record, and as a legislator, I worked to implement a "Women's Informed Consent" law, which provides women

						<p>in Idaho, our state government promotes the services of Planned Parenthood for the sole purpose of “terminating a pregnancy.” What have we missed in the arts, in science, in culture, because we cut short 60 million lives? There is no moral justification for aborting babies as a form of birth control. Policy Summaries (edforidaho.com)</p>	<p>considering abortions with valuable information and resources. I also sponsored and enacted a bill that provides a woman an opportunity to view an ultrasound image of her unborn child. I support the reconsideration and eventual overturning of <i>Roe v. Wade</i> and <i>Planned Parenthood v. Casey</i>, sending this decision back to the states where it belongs. As Governor, I will always remain a committed defender of the right to life.</p>
<p>3. What is your stance on federally owned land in the State of Idaho? Do you have any suggestions of changes that should be made, or should the current arrangement be maintained?</p>	<p>The Federally contracted lands in Idaho, are within the borders of a sovereign state and as such should be managed by that state. I will push to take back Idaho lands and manage the resources within Idaho’s Border.</p>	<p>I believe each state should have final say over public lands in their borders.</p>	<p>I would like to see Idaho be owned by Idaho and Idahoans.</p>	<p>I believe the federal government can only own land if they purchase it. Other than that no they can not own property in Idaho. My suggestion is produce a bill of sale or leave the land to Idaho citizens.</p>	<p>I believe that the federal and state government should make better efforts on agreeing with each other and work hard at seeing that it happens.</p> <ul style="list-style-type: none"> • Do you have any suggestions of changes that should be made or should the current arrangement be maintained? <p>I believe there is room for improvement with the present situation and that not all options have been brought to the</p>	<p>Over 61% of the land in Idaho is controlled by the federal government. There are resources America needs for her national security. Idaho has them, but we are not allowed to touch them. We need to start wisely managing our abundant natural resources. No example of egregious federal mismanagement is more obvious than when looking at our forests. Each year the feds allow them to burn down because they don’t allow us to manage</p>	<p>Idaho is a large and beautiful state with valuable natural resources, yet federal mismanagement has severely limited our productivity. We must strive to restore Idaho's state sovereignty and reduce our financial dependence on federal dollars so we can grow our economy, create good jobs, and increase the state's productive management of the federally controlled land within our borders.</p>

					negotiation table for consideration.	them properly. I believe that Idaho should partner with other states to form a coalition in order to facilitate a return of federal lands back to the states. However, Idaho's lands must be preserved and protected for recreation and enjoyment by sportsmen and outdoor enthusiasts. We will keep the lands in an iron-clad land trust and they will NOT be sold off. Bottom line: We need our public lands to actually benefit the public! All Policy Summaries 10.21.21 (edforidaho.com)	
4. Does the Idaho legislature have the authority to terminate a state of disaster emergency at any time, overriding any executive order? Why or why not?	Legislature gave the governor the power to declare an emergency for 30 days, then the ability to extend that another 30 if necessary. After that it has to be approved by the legislature.	Yes they can terminate an executive order. I feel that title 46 should be amended to also read that for a state of emergency to continue after 60 days then it has to be implemented by a super majority.	Yes, in the Idaho Constitution Title 46, chapter 10, section 2 it states "The legislature by concurrent resolution may terminate a state of disaster emergency at any time. Thereupon, the governor shall issue an executive order or proclamation ending the state of disaster emergency."	No! The Governor has supreme power. I do think that the state of disaster need to be a cataclysmic event to be enacted because they are only to move resources to where they are needed for a short amount of time.	I can't directly answer this as I am not sufficiently familiar with all of the by-laws of the Idaho constitution. <ul style="list-style-type: none"> Why or why not? If the constitution grants this power, then they do. If it doesn't, then it doesn't 	The Idaho legislature has the authority to terminate a state of disaster emergency at any time and override any executive order. Because one chamber of the legislative body never formally "Sine Die" they could have reconvened at any time. Sadly for many Idaho businesses and families this didn't take place when it should have. For example, I totally disagree with the current governor's mandates during the pandemic. It is my understanding that the	Idaho statute gives the Idaho Legislature the authority to terminate a state of disaster emergency at any time. Allowing the state of emergency to continue indefinitely has compromised the constitutional balance of power in our state and has done great harm to our state's independence and sovereignty.

						<p>Governor acted beyond the scope of his power by continually renewing the state of emergency. Even more concerning is how leftist states like New Jersey ended their state of emergency before Idaho! Obviously, the state of emergency and the COVID restrictions have been a disgrace. We are STILL, 2 years later, in a state of emergency that continues to be renewed by the Governor to get every dollar from Joe Biden to run this state. The danger of government bureaucrats and corporations making medical decisions for the rest of us cannot be understated!</p>	
<p>5. Have you signed a “no new tax” pledge? Why or why not?</p>	<p>I have not, but I certainly would be open to that.</p>	<p>No, I have not signed a no new tax pledge but mainly because it has never come up. I believe if a new tax is passed then two old taxes have to be deleted at the same time and no later.</p>	<p>No, I have not seen anything on that.</p>	<p>No I have not! Because I am libertarian so I only believe that the federal, state, and county should tax at a rate high enough to operate as a limited government.</p>	<p>No. Why or why not? To the best of my knowledge, the pledge or petition has never been brought to the attention of the registered voter base in my county, being Owyhee. I haven’t been required to consider it.</p>	<p>Yes, my plan is to eliminate income tax and stabilize property taxes. I intend to create and empower a Taxpayer’s Bill of Rights. The reason for this is simple, every time we shrink government and cut taxes WE ALL DO BETTER! All Policy Summaries 10.14.21 (edforidaho.com)</p>	<p>I have not been asked to sign such a pledge during this campaign, but I am committed to reducing government spending, which is what drives tax increases. I do not support tax increases.</p>

	Steven R. Bradshaw	Ben Cannady	Chantyrose Davison	John Dionne Jr.	Stephen Heidt	Edward R. Humphreys	Janice McGeachin
<p>6. Have you signed the Manhattan Declaration (which defines marriage as between one man and one woman) or the Families First pledge? Why or why not?</p>	<p>I have not, however I am a Pastor and marriage is between 1 man & 1 woman. Does not nature itself teach us that.</p>	<p>No, I have not signed the Manhattan declaration. The United States Of America was founded on the belief that all men are created equal and that means men and women. On that note every man and woman who has not only served in the military of the USA and in turn those who gave the ultimate sacrifice and not just the soldier but there loved ones served and died to give every legal United States Citizen the right to the pursuit of there happiness and if that is two men or two women getting married and as long as they are not pushing that onto others then yes they deserve to be married. I believe that to stop them is to disgrace the sacrifice made by our soldiers and their families and I will do my best to not</p>	<p>No and until this questionnaire had not heard of it before. I believe marriage is up to the people who are getting married so long as it is not breaking any laws for example involving underage minors. I do though believe that if places such as churches do not wish to perform same sex marriages they should not be harassed or forced to accept it.</p>	<p>Manhattan Declaration No! because it infringes of their individual right to life, liberty and the pursuit of happiness.</p>	<p>No. • Why or why not? To the best of my knowledge, the pledge or any petition has never been brought to the attention of the registered voter base in my county, being Owyhee. I haven't been required to consider it. I believe in free agency and that a person or people have the God given right to self-determination. I do not believe that God has empowered one man or a group of men to deprive others of this. If God disapproves, let him be the judge, but allow parents to teach their own children as they choose.</p>	<p>I believe marriage is between one man and one woman. Families are integral to society. The degradation in art, culture, and the constant assault on the nuclear family is something that we all should be deeply concerned about. It is one of the most subversive and dangerous threats to America. I believe in the 3 tenets espoused in the Manhattan Declaration "1: the profound, inherent, and equal dignity of every human as a creature fashioned in the very image of God, possessing inherent rights of equal dignity and life; 2: marriage as a conjugal union of man and woman, ordained by God from the creation, and historically understood by believers and non-believers alike, to be the most basic institution in society, 3: religious liberty, which is grounded in the character of God, the example of Christ, and the inherent freedom and dignity of the human beings created in the divine image."</p>	<p>I have not been asked to sign this declaration, but I do believe that marriage is between one man and one woman. Idaho's State Constitution affirms this truth, and this determination is the proper prerogative of the states, not the federal government. As a state legislator, I voted in favor of the state constitutional amendment that affirmed the traditional definition of marriage.</p>

		dishonor them and to do my best to always show that.					
7. In your opinion, under what circumstances should the state of Idaho sue another state or the federal government?	When that state violates Rule of Law and their own A.G. does nothing.	The only time they should do that is if it was affecting Idaho and its citizens directly.	In the case of mismanagement or cover up of information such as in the case of COVID where important information was being withheld and forced on citizens.	When their policies and laws have a negative effect on Idaho citizens.	Any time another government encroaches upon the constitutional rights of the State of Idaho.	Under any circumstance in which another state or the federal government oversteps their bounds or violates the rights of Idahoans. And especially when you have states conducting unlawful elections!	Such action is appropriate to uphold and defend the Constitution of the United States, the Idaho State Constitution, the sovereignty of the state, and the rights and freedoms of the people.
8. Do you interpret the Idaho Constitution as a living document?	No I do not. Neither the U.S. Constitution is a living document. It was not to be changed	Yes I do but it should only be amended by a super super majority as in 90 maybe 95 percent majority and maybe by the vote of the public only at 95 percent.	Yes same as the Constitution of the United States.	No just as the United States Constitution is not a living document. The founding fathers were quite wise in its writing and construction.	As long as the people of Idaho are empowered to elect legislative representation to make constitutionally legitimate change, yes, and, they do. The Idaho Constitution is the law and can be changed and used to the advantage of both conservative and progressive, alike. In the State of Idaho, both ends of the political spectrum need to have sway with the moderate constituency to gain advantage. I am a moderate, but have some progressive items on my platform, but as will be seen below, I also have conservative views that balance my political platform.	Absolutely not. We must operate within the confines of both the Idaho and US Constitution. When we want to operate outside of those confines then we must honor the amendment process.	No. Both our federal and state constitutions may be amended, but such amendments should be rare and require a high threshold to enact. Moreover, I support interpreting our constitutions according to their original intent and not tolerating activist courts discovering 'new' rights such as was done to justify abortion and same-sex marriage.

<p>9. All too often bills that are based on conservative values struggle to get passed Committees, the House and the Senate. When they make it to your desk as Governor, what guidelines or values will you use to determine which bills you will sign?</p>	<p><u>1st</u> – Is it defensible in court <u>2nd</u> – If it is a good bill, has the effects and consequences been considered? Does it follow Rule of Law and the Contitution. <u>3rd</u> – Does it serve the people or the government.</p>	<p>I make my choices on my morals and also on the sacrifices made by our soldiers and their families.</p>	<p>Moral judgment, public safety, and the Constitutional rights of the people...Will it actually help the people of Idaho or will it only help big corporations? I want to be for the people.</p>	<p>The only guideline that I can. Do they infringe on Indaviduals Rights, liberties, or freedoms.</p>	<p>I have three equal responsibilities: one to the constituency at large, two to the party that supported me to get into office and three to the constituents that voted for me. The first two are easy to identify, the third is not. As a moderate I have to keep these three things in mind when making such decisions. I will follow my platform presented to the IDP central party. If it is not included there, the likelihood is that I am moderate.</p>	<p>I oppose legislation in which more power is given to government experts to make decisions for us and support legislation that returns power to individuals and families. I will use the line-item veto to eliminate wasteful, socialist, and unproductive appropriations.</p>	<p>First and foremost, any bills I sign must be constitutional. Assuming they are, I will then determine if they are intended to constrain the size and scope of government or to expand it. I will also evaluate their impact on the rights and freedoms of the people. As Governor, I will not be afraid to veto legislation that is inconsistent with conservative values.</p>
<p>10. According to the Idaho Constitution, the office of the governor, has “supreme executive power.” What does this mean to you?</p>	<p>In most cases he or she has last say to most bills/laws passed, except for majority vote overrule by Legislature. He/she has budget authority and sets final budget. As Governor, he/she should be accountable for how the state is run.</p>	<p>To me this means it is the governor’s job to do its best to make sure all of Idaho and its citizens are taken care of. All elected officials are in their jobs to work for the people that voted them into their job and for too long now our elected officials seem to think they are the ones in power and not the people and I would love to change that and put the people back into the power seat.</p>	<p>That the Governor has to be honest and responsible because they are responsible for the state’s administration decisions.</p>	<p>It is my job to protect every Idaho citizens Right, Liberties, and Freedoms if I agree with them or not.</p>	<p>It is a power that should not be used, except in emergencies. I haven’t seen anything that I would deem an emergency in Idaho in recent decades.</p>	<p>It’s the power to carry out the will of the people as dictated by the Constitution and the law. We must be governed by the rule of law rather than the dictates of man. On a more technical level; the governor oversees the departments and agencies of the state of Idaho. The governor initiates the budgeting process by crafting recommendations. The governor also appoints capable and honorable people to positions in which they can effect positive change for Idaho.</p>	<p>Executive power is distinct from legislative and judicial power, and I support maintaining a constitutional balance of power in Idaho. The duties of the Executive including enforcing the law; overseeing executive agencies and departments; appointing various officials, boards, and commissions; and providing a check — through the veto power — on legislative overreach.</p>

	Steven R. Bradshaw	Ben Cannady	Chantyroise Davison	John Dionne Jr.	Stephen Heidt	Edward R. Humphreys	Janice McGeachin
11. If elected, who do you see yourself accountable to and why?	The Governor should always be accountable to Rule of Law and to the People which he serves. And God First!	All elected officials are in their jobs to work for the people that voted them into their job and for too long now our elected officials seem to think they are the ones in power and not the people and I would love to change that and put the people back into the power seat.	I see myself accountable to the people of Idaho. I see myself accountable to the children of Idaho who depend on us as the adults and as the leaders to help them have a safe great place to grow up and to inspire them. I know what it's like to be the kid with dreams who becomes the adult who learns to settle and eventually gives up on those dreams. I'm making a choice to show them you should never give up. To never give up on an opportunity to help others.	If elected I am only accountable to God, the people and myself. Because I am a servant of the people.	First and foremost, to God. Secondly, to the people of Idaho and thirdly, to the U.S. and Idaho constitutions.	I will be accountable to the people of Idaho and to the eternal principles that serve as the rock under the foundation of this nation. The Preamble to the Constitution says it best: "To establish Justice, ensure domestic tranquility, provide for the common defense, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity, to ordain and establish the Constitution of the United States of America." It's important to honor those timeless principles because no servant leader can help create lasting positive success without leveraging divine principles.	I am accountable to God and to the people of Idaho. I am also held accountable by our state and federal constitutions and by the limits they place on government power. Adherence to principle is rare in government, where expediency and compromise often take precedence. As Governor, I will prioritize principle and I will always act to defend the Constitution of the United States, the Idaho State Constitution, the sovereignty of the state, and the rights and freedoms of the people.
12. What is your opinion regarding freedom of choice for parents for the education of their children, for example School choice?	Parents have full rights over their children and the money should follow the child.	I believe school choice is the only way to go. I strongly believe that the money should follow the student to wherever the parent deems fit even if that school is a religious based school. I do	I believe that parents should have the freedom of choice for schooling for their children.	I cannot be clearer on this Individual choice cannot be infringed!!!	I believe in self-determination. I do not believe it is something that can be used in one instance and discarded when convenient. I believe that parents hold that right for their children until the children reach	I have been one of the most vocal statewide candidates in support of School Choice. I strongly believe we need more educational options and wherever parents choose to send their kids for education, we should allow their tax dollars to follow the children to the school of	I strongly support school choice. There are numerous policies that Idaho could consider to make sure that all Idaho students and parents have the ability to choose a form of education that is the

		believe in the separation of church and state but when it comes to the funding for the kids and the future of our county the money is coming from our taxes and the parents should have a say over how it is spent.			the legal age determined by law.	choice. Truthfully, I encourage people to watch my videos and attend an event. This single subject is one in which I am deeply passionate about and, in my opinion, would create the most impactful change for our state and society.	best fit for them. As Governor, I will encourage the Legislature to take up these issues and to prioritize school choice in all matters of education policy.
13. The 10th amendment states: The powers not delegated to the United States by the Constitution, nor prohibited by it to the states, are reserved to the states respectively, or to the people. What does this mean to you?	Each state is sovereign and should be sovereign over the lands within its borders. As a sovereign state it has full power as to it's laws & regulations, not to be in conflict with the U.S. Contitution.	The 10 th amendment was set up so that the states powers superseded the federal powers and that the individuals powers are to keep the state and the states governing powers in check. Ultimately America was founded on the principle that it was run by the people and yes the elected people have forgotten that they are to carry out the will of the people and not to enact political ideology.	It means that the federal government does not have control over the state to force us to do something. We as the people have to work together to decide what is best. My opinion is that if there is a question on something like that it should be voted on by the people.	It means the federal government is granted enumerated powers. Any Law in those powers has to be enforced other than that get out of our way.	This is an age-old discussion within the United States, both sides represented in the Federalist and Anti-Federalist papers. I am a certified teacher in the state of Idaho to teach American Government. I choose to remain neutral on this discussion as each instance where this might be applied sometimes is very interpretational.	It's one of foundational tenets of dual sovereignty. Sadly, we sold our state sovereignty long ago for 30 pieces of silver. Its a deep betrayal that so many politicians will take federal money and subjugate Idaho agencies to runaway federal bureaucracies. We need a Governor who will start the process of divorcing Idaho from any federal monies that come with chains attached.	The 10th Amendment contains two vital provisions, which recognize the division of power within our republic. The powers delegated to the federal government are "few and defined" as Madison wrote. The powers retained by the states are defined in their respective constitutions. Any powers not delegated to the federal government or retained by the states in their respective constitutions remain with the people. The ultimate source of all authority is the individual and government can exercise only that authority which

							individuals delegate to it.
14. In recent years some groups have advocated for legalizing marijuana in our state, do you support or oppose the legalization of marijuana? Why or why not?	I oppose the legalization of marijuana, it is counter productive and has contributed to the downgrade in family, communities and the country	I feel that more research is needed to be sure on this topic but for now I am in the boat of yes legalize it and regulate it just like alcohol you must be 21 or older to buy and use it and all the same punishments if you abuse it.	No I do not believe in legalizing marijuana. I see the damage being done around us with other states legalizing drugs and once that was to be approved there would be another drug being pushed until we are just as bad. I have heard so many complain about adults smoking cigarettes and how unsafe that is especially around children what do they think would happen with a drug like marijuana being smoked and giving contact highs to children? Something that can severely impair your response and thought process...now put them behind the wheel. I would never want to encourage that.	I am not for the Legalization of any drug. However I am for the decriminalization of all drugs. We only confiscate your Drugs. Cuts down on prison over crowding.	Though I do not advocate legalizing marijuana, part of my platform is to decriminalize it, reducing it to status similar to a traffic ticket, and release all those in the county jails and state prisons who are being held for this crime. It would save a lot of tax payer dollars and the fines paid for the ticket would bring in state revenues, being a win-win situation for the state and local governments, the police and the citizens. I also believe in free agency or self-determinization. The right to swing one's fist however, ends where another's nose begins, and when intoxication creates public endangerment fines need to be truly painful.	I reject the legalization of marijuana because it's a gateway drug that leads to serious drug dependency and addiction. My strong stance on opposing ANY legalization/decriminalization of marijuana was noticed by law enforcement in Idaho. I'm honored to be endorsed by the Retired Law Enforcement Officers Association of Idaho, Code 3 to 1.	I do not support the legalization of 'recreational' marijuana as has taken place in states like Colorado and Washington. These programs have created new taxes, expanded the size and scope of government, and caused avoidable societal problems.
15. What is your background and why do you believe it qualifies you for this position?	Have been self employed in the automotive industry, then commercial and residential construction 50 years, 21 years as a Pastor, 2 terms as County Commissioner.	To be honest I get asked this question a lot and frankly this is not a job I hunger for. Who wants to have a job where 50 percent of the people hate you and harass you and your family. But I m sick and tired of us losing	I grew up in Marsing. I have spent years volunteering for things such as homeless shelters, school programs, cleanup, and more. To qualify for the position First, you need to have lived in the state for 2 years; I have lived here for roughly 35	Nothing in a persons background could qualify them for this job. The only thing that qualifies me it the desire to do what I feel is right for all of Idaho.	My background is why I am qualified for this position and it is found in my platform which I have included.	My relatives fled communist Europe to seek freedom in the United States. They worked hard to achieve the American Dream. I am a first-generation citizen of this country, and I grew up listening to my relative's harsh stories about living under an oppressive socialist society. I see socialism	I am a small business owner and an entrepreneur. I served as an elected State Representative from 2002-2012 and I am currently serving as Idaho's Lt. Governor. I have a degree in Finance Accounting. I have

	<p>Ronald Reagan once stated that the best job to qualify someone for Governor or President was, county commissioner. Having that experience I would fully agree.</p>	<p>our freedoms little by little and not one doing anything about it. I am tired of politicians saying whatever it takes to get elected and then going back on their word.</p>	<p>years. Second, you need to be 35 or older; I am forty-one. Third, you have to be a citizen of the United States; I'm definitely a citizen. So based on what the state requires I am fully qualified. I am new to politics but I am not new to paying taxes, losing money to everything and anything that wants to take my money, to working hard, to caring about people, and to doing what is right.</p>			<p>creeping into Idaho, a state I believe is the last foxhole for conservative values. Many former "red" states have been flipped "blue" by liberals, including Colorado. I will fight to preserve Constitutional Conservatism in Idaho. I have a Master of Science in Finance and a Graduate Certificate in Financial Analysis and I have followed the money. I've read thousands of pages of fiscal reports from our state government and know exactly what's going on. When you change the way you fund something, you change that thing itself. It's powerful to have a finance guy in the Capitol because the Governor has immense authority over the budgeting process. We need more public servants who know how to follow the money and uncover the truth. I promise to reduce the waste in the budget, eliminate redundant and unnecessary government agencies, and DO THE THINGS I'VE PROMISED! Every time we pay our taxes, we are footing the bill to ruin Idaho and destroy the American Dream. We are</p>	<p>actively supported conservative political causes and candidates for many years. My extensive experience in both the private and public sectors uniquely position me to recognize opportunities to increase government efficiency while reducing its size and scope. Idaho needs a Governor who is a proven conservative leader with the experience and commitment to defend individual liberty, state sovereignty, and traditional conservative values.</p>
--	---	--	--	--	--	---	--

							following the blueprint that changed Colorado to a liberal stronghold in eight years, just FOUR election cycles. Untold millions of our tax-dollars are being funneled into agencies and private non-profit organizations that seem reasonable and necessary but promote Anti-American ideas that violate our state constitution. We need to defund these activists. As Governor, I will use a line-item veto to cut this special-interest pork from the budget. I will ban all state agencies from hiring lobbyists! THEN THE state government WILL BE accountable to the will of the people.	
--	--	--	--	--	--	--	--	--
