

Watchmen Voter Guide for Kellogg School District Zone #3

** Click on each candidate's name to see their completed questionnaire **

	Sarah Frohlich	Samuel Gibbons
1. What is your name, what office are you running for and why are you running for this position?	My name is Sarah Frohlich and I am running for Kellogg School District Zone 3 Trustee because our children are not learning the fundamentals of reading, writing and arithmetic. Teachers and curriculum are becoming too focused on trendy social justice issues instead of the core subjects students need to succeed in life.	No Response Received
2. How could your school district be improved? Please provide your top 2-3 ideas.	Kellogg School District needs to have more transparency and accountability. All meetings need to be live streamed for the public and teachers and staff need to be held to the standards and requirements of the approved curriculum. The public/parents need to know where all monies are spent in a timely manner.	No Response Received
3. What is your educational philosophy and how do you plan to implement this philosophy as a member of the board of trustees?	Emphasis needs to be on subjects that will assist students to lead successful and self-reliant lives; math, reading and writing, trades as well as educating them on the constitution and bill of rights. Curriculum guidelines and standards need to be raised and enforced.	No Response Received
4. What role should "Critical Race Theory" have in the education of children?	NONE. CRT is a woke/liberal idea that tries gaslight children into the idea that they are inherent bullies or victims because of the color of their skin. It does not have a basis or reason to be taught in K-12.	No Response Received
5. Would you support adding diversity, equity, and inclusion to the school curriculum? Why or why not?	No, especially when Idaho students are at 52.2%, 41.5% and 41.6% for meeting grade level expectations in English Language, Mathematics and Science respectively.	No Response Received
6. What is your view on the growth of Charter Schools?	The growth of Charter Schools is proof that public schools are not providing the type of education parents want for their children. Charter schools are an amazing resource educational system and public schools should learn from them.	No Response Received
7. Should children be allowed to access obscene materials through school libraries? Please base your answer on the federal definition of obscenity.	Absolutely NOT. Not only should taxpayer dollars NOT go towards a school purchasing obscene materials, but people need to ask Why are teachers wanting obscene material in the libraries? It should be the parents making the decision about whether that type of material is to be available to their children, not the school.	No Response Received

	<u>Sarah Frohlich</u>	Samuel Gibbons
8. Do you support or oppose bathroom and locker room usage based on preferred gender identification? Why or why not?	I whole-heartedly oppose allowing bathroom and locker room usage to be based on preferred gender. Allowing this puts students physical and mental/emotional safety at risk.	No Response Received
9. How should counselors work with parents to resolve issues with their children?	Counselors need to work with only the parents. Parents need to be advised by the counselor is there is a problem and allow the parents to handle it. There should not be any meetings with children without a parent being present.	No Response Received
10. What is your opinion on students being able to receive an abortion or change their gender without parental notification?	This should be illegal and considered child abuse. Besides the fact that anyone under the age of 18 is legally a minor, it is a biological fact that children's brains don't fully develop until they are in their mid-to-late 20's. Therefore, it is illogical to assume these children are capable of making a life altering decision regarding abortion or changing their gender.	No Response Received
11. Do you support the 1619 project? Why or why not?	I do not support the 1619 project as it perpetuates the illogical premise of systemic racism and erroneously claims the Revolutionary War was fought to preserve slavery rather than to gain independence from British rule and taxation.	No Response Received
12. In what circumstances should students be able to receive mental health assistance without parental notification?	Students should never be able to receive mental health assistance without parental notification and consent.	No Response Received
13. Who has the responsibility for the education of children?	It is primarily the responsibility of the parents to ensure their child(ren) are receiving a proper education, whether is from a public, charter, or private school or home-schooling.	No Response Received
14. What should the goal of education be?	The goal of education is to prepare children to be responsible self-sufficient adults by teaching them the skills and knowledge in Math, English, Science, and basic trades. Ideally this would be in tandem with a home life that includes parental guidance and teaching of morals, respect, and responsibility.	No Response Received
15. Do you support or oppose the legalization of marijuana? Why or why not?	I do not support the legalization of marijuana. I do believe it can lead to other, more harmful drugs.	No Response Received
16. What is your background and why do you feel it qualifies you for this position?	I have been in the accounting industry for over 30 years and come from a very conservative, moral/ethical, and Godly upbringing and have strived to raise my children the same. Our nation's children are being ruined and slowly brainwashed with Leftist and 'Woke' ideologies which are being pushed into and allowed into our educational system. Children are being taught to ignore science, truth, and Christian values and instead to embrace 'feelings' and the idea that 'Whatever makes you happy' is of the utmost importance. Our children are our greatest treasure, and they deserve better. I have had two children graduate from the Kellogg School District and my third is starting high school this year. I have seen how low the academic standards have fallen. I am passionate about fighting to bring back quality education to our schools and enforce transparency and accountability of District teachers and staff.	No Response Received
