| 1. What is your name, what office are you running for and why are you running for this position? | No Response Received | Elaine Price Idaho State Representative District 4 seat B |
| 2. When do you believe life begins and how does this belief affect the legislation you will support? | No Response Received | Life begins at conception. When you have an underlying belief, it drives your decisions and weighs heavily when looking at legislation and how it affects your constituents. |
| 3. What are the top three issues that you feel the legislature needs to address? | No Response Received | We need to cut spending and return surplus money to the people. Continue to pass legislation that protects our children, parental consent on social media would be a good next step. School choice legislation would help those that find public school does not work for their children. |
| 4. What do you consider the biggest health care issue for Idaho, and where do you stand on it? | No Response Received | The government should not be involved in individual health care choices with limited exceptions. |
| 5. Idaho's school system has room for improvement, how would you legislate to improve K-12 education in Idaho? | No Response Received | The public school system should be held accountable for outcome-based results. These need to be measurable goals. I like the idea of funding being based on these outcomes using the funds already allocated for our schools. We are to provide for funding of our schools, no where does it say the schools need to be run by the government. |
| 6. Do you support or oppose legislation to prohibit gender reassignment treatment/surgery on minors? | No Response Received | I supported legislation that passed prohibiting these surgeries on minors. |
| 7. If elected, how will you ensure that you are aligned with your North Idaho constituents' values and how will your voting record reflect those values? | No Response Received | I do my best to make myself available to my constituents. I talk to them and hear their concerns, which helps me make sure I am aligned to North Idaho values and constituents. Please check out my voting record the last two sessions and reach out if you have any questions. |
| 8. What is your definition of marriage? | No Response Received | Marriage is between one man and one women. |
| 9. In recent years, sexually explicit materials have been found in public schools and libraries. In your opinion are these materials appropriate for minors under 18 years old? | No Response Received | No, not at all. Minors are facing social issues at younger ages each passing year. We should allow them to be children as long as possible. |
| 10. What legislation should be passed regarding School Choice? | No Response Received | I would like to see us start out with a tax credit bill and go on from there. There are many students that do not flourish under the current public school system. We are obligated to pay for their education as well. |

| 11. What legislation would you recommend to prevent property tax increases that are causing a financial burden and forcing some owners out of their homes? | No Response Received | Property taxes are tied to budgets. There are so many taxing districts which compromise the levy rates used to come up with property tax owed. We need to lower spending, pay for what the government is required to pay for and cut the unnecessary spending. |
| 12. In your opinion, if elected, who do you see yourself accountable to and why? | No Response Received | I am accountable to my God, my constituents who voted me into office, and Idaho residents. |
| 13. In recent years some groups have advocated for legalizing marijuana in our state, do you support or oppose the legalization of marijuana? Why or why not? | No Response Received | I oppose the legalization of marijuana. I see no good coming from legalization. The states that have done this seem to have an increase in harder drug use and homelessness. I do not want to see that happen in Idaho. |
| 14. What is your background and why do you feel it qualifies you for this position? | No Response Received | My experience, education, and skills, all of which I have, are not qualifications to represent a districts constituency in the legislature. Idaho code 34-6-34 defines those qualifications. I've lived in North Idaho since 1990. I am the current Representative for 4B. I am the voice of North Idaho in Boise. |
